Title of the event: Selenium with Java Framework			
Coordinator: Prof. Appurva Kapil			
Venue:	D - 511	Date:	01/10/2023

Abstract:

The Department of Computer Engineering conducted a session “ Selenium with Java Framework” on **01 October 2023**. The session on "Selenium with Java Framework" provided attendees with a comprehensive understanding of leveraging Selenium WebDriver within the Java programming language to automate web testing. The session aimed to equip participants with practical knowledge and techniques essential for efficient test automation using Selenium. The session was organized for the students of 4th semester.

Expert or Guest Profile (In Detail):

Mr Hitesh Kachhela,
Techmicra IT Solutions,Ahmedabad

No. of Participants: 26

Impact of that event in terms of POs & PSOs:

The "Selenium with Java Framework" session concluded successfully, imparting practical skills and knowledge to participants seeking proficiency in automated web testing. Attendees left with a foundational understanding of Selenium WebDriver integration with Java and the ability to create a structured framework for efficient test automation. PO1,PO4,PO11,PSO1,PSO3 were addressed during the session.

Student feedback:

- **Content Relevance:** Participants found the content relevant and aligned with their expectations for learning Selenium with Java.
- **Clarity and Delivery:** The facilitator(s) were commended for clear explanations and effective delivery of complex concepts.
- **Interactive Learning:** The hands-on workshop was highly appreciated, offering a practical understanding of Selenium's usage in Java frameworks.
